

Utkal  
LEVELS  
PAHAL

It's a drive, not to stop at where we are,  
but to get to the next.

The next pinnacle, the next benchmark.

The next frontier, the next vision.

An exclusive realm of 205 discerning residents  
that get to live the next level life.

The next level is not a destination,  
but a journey that sees you growing from  
one level to another.

Your life is one such journey.

Now your home will experience it too.

# THE NEXT LEVEL

4 levels of curated indulgences.

A host of unique experiences that elevate your life to the next level.

# THE DESIGN INCEPTION

Nestled in the urban environs of Pahal, immense lush greenery surrounds the land parcel. The distinctive shape of the site self-dictates its form & probable outline.

The project houses the uber luxury living segment sized apartments. Offering 180 degrees external views to all units. The plan ticks basic Vaastu points and gets shaped into 3 distinct towers. Tower CREST rests abutting the national highway with 4 BHK cross ventilated apartments facing the main road & lush green podium, framed by the greenscape ahead. Towers CROWN & PINNACLE interlock with cross ventilated 3 BHK (ultima & optima) apartments, placed on the multilevel car parking with lush green podium floor.

The magnitude of healthy living gets redefined in multi-fold aspects at various LEVELS. Amenity menu exceeds more than 50 true functions offering a community living with the fundamentals of joy, peace, health & sustainability. With dedicated spaces for various activities as well as open spaces for movement, community living and interaction, focus has been on the mental, physical, and emotional wellbeing of the inhabitants.

The lungs of the project breathe fresh air with a substantial canvas of landscape.

The LANDSCAPE gets its due surface on various LEVELS, respecting the open space on mother earth and a vast percentage of green- deciphered into a podium & terrace, offering respite and comfort within the premise.

The project expresses ROYAL LIVING with the selection of colour combinations of White and Prussian blue. The architectural features in terms of the 7 feet wide sky decks and the vertical folds which hug the decks, accentuate the heights of the towers to offer a recognisable façade to the building. Sticking to absolute basics of math & geometry of architecture, the project stands true to the concept and culminates into the 'NEXT LEVEL' of living.
